

About Force – Easy Science for Kids

Read the sentences below. Visit our Easy Science for Kids page [All about Force](#) to find the missing words.

Write them in the empty spaces and find these hidden words in the puzzle!

[Words might be hidden horizontally, vertically and perhaps even back to front...!]

1. Sir Isaac _____ was one of the first scientists to study _____ and force.
2. _____ and elastic are also types of force. Push against them and they _____. They spring back with the same force you gave them.
3. _____ is not a force. Anything with mass – or anything that has weight – automatically slows down because of that weight. This is inertia.
4. Gravity is a _____ force. It pulls everything down towards the _____.
5. _____ makes things slow down. It can also warm them up.
6. _____ is a type of force. A magnet might pull an _____ toward it or push it away.
7. Any kind of _____ is really just a push or a pull.
8. _____ is the speed of an object as it moves in one direction. If it changes directions, its velocity changes too.

E	L	A	S	T	I	C	Y	N	O	I	T	C	I	R	F
